

Math Information Night

WITH CAROLE FULLERTON

**Mildred Hall School
Teepee**

Sep. 27, 6:30 p.m.

For parents & caregivers

YK1's math curriculum is focussed on the big ideas, on mental math, and on number sense.

It encourages learners to think deeply about mathematical concepts and make connections between ideas.

How can we support our children in becoming mathematical thinkers?
Come and find out!

This session will focus on concepts from Grades K-8. All YK1 parents and caregivers are welcome to attend!

Carole is a Vancouver-based teacher-leader working in K-12 classrooms to support the development of numeracy instruction. Addressing student diversity through rich questions, teaching through problem-solving, and planning around the Big Math Ideas are essential aspects of her practice.

Carole has taught JK through Grade 12 in English and in French, was the coordinator for Mathematics in the Richmond School District, and was a sessional instructor in the SFU Numeracy Graduate Diploma. She has authored and co-authored several teacher resource books on mathematics instruction.
