RE: No Stopping Zone on Taylor Road

The City of Yellowknife (the City) has received numerous complaints about traffic congestion on Taylor Road by École Allain St-Cyr and École William McDonald Middle School. The congestion in the area has made it extremely difficult for school buses to get through the area, and has caused safety concerns for student drop off. Due to this congestion, the City is extending the No Stopping Zone on Taylor Road to the end of the school zone. Please refer to the map below for the new extents of the No Stopping Zone.

Map of Taylor Road No Stopping Zone

In addition to relieving the congestion on Taylor Road, extension of the No Stopping Zone will also allow sufficient access for the City's Public Works Department to complete road maintenance activities. Recently, vehicles parked in and around the existing No Stopping Zone have limited the City's ability to perform work such as snow clearing and other maintenance items.

Please pass along notice to parents and staff that the new limits of the No Stopping Zone are planned to be in place this winter, and provide a reminder that vehicles are prohibited from stopping within the designated No Stopping Zone.

If there are any questions or concerns, please feel free to contact me at dmacmillan@yellowknife.ca.

Sincerely,

David MacMillan
Municipal Engineer
